OWNER'S MESSAGE

Mohd Husni Abd Halim

Visi Armada Consulting was established with only one thing in mind, best delivery of latest knowledge to upgrade manpower skills which will have long lasting useful, positive effects to its participants.

I was a main trainer at one prominent local university, at one HRDC Program last year, and one of the HRDC assessors, visited and joined our program for a short while to assess our program and he interviewed some of the participants. He was thoroughly impressed with program and much more of the same feedback from our participants. He never seen anything like this in 8 years working as assessor for HRDC and that made me want to produce more training and making sure it has the long lasting positive impact to our participants.

Visi Armada Consulting was born after that and will continue striving to deliver beyond expectations for its clients. That's our promise.
